

Checklist for Pathé Cylinder Transfer Serial Numbers: CÉLESTE (double-length Concert size, 20 x 12 cm)

This is a checklist of all transfer-serial numbers for moulded CÉLESTE (double-length Concert size) cylinders that have been identified so far for the Pathé Label Discography, and for which discographical details are known. Please report full details of all moulded Pathé cylinders (also related labels like AICC, Atlas, Bonne Presse, Dansk Fonograf, Dutreih, Paradiso and others) that are NOT already in the list below, or that are at odds with the details given in the present checklist. Typed or written lists are just as welcome as clearly legible scans or photos, or database excerpts in any unambiguous format.

All correspondence should be addressed to: chris@truesoundtransfers.de , or snailmail to: Christian Zwarg, Raschdorffstr. 15, 13409 Berlin, Germany

NOTE: This is NOT a catalogue of available recordings and NOT a sale or auction list. Most of the records listed here are not in my collection and available not in public archives.

Transfer-Serial Nr.	Master-Cylinder Nr.	Title (abridged, for identification only)	Diameter
32	3945	MIREILLE (Charles Gounod / Michel Carré; after Frédéric Mistral) @ • V.1	C12L
51	3931	FAUST (Charles Gounod / Jules Barbier; Michel Carré) @ • III.9.b. Air de	C12L
